reparing to Drive Their Big Tunnel Vigorously.

dly less interesting has been the de-opments in the Big Cottonwood pper & Gold territory, where fine ore exposed in the surface workings,

ound in Which Big Copper Strike

perty presents about the greatest wing of rich copper ore at the ass roots" that has ever been stumd onto in this region. The ledge ps for 3,000 feet through the claims, t varies in width from twenty-five to feet. At a point where the ledge stripped for a width of thirty feet wenty-foot shaft was put down at in the middle of it. Every inch

asury stock is already subscribed to insure an energetic campaign development this spring. The intion is to send the shaft down 100 200 feet and then drift along the in. In this way Mr. Wilson is very infident that he can expose a tonge that cannot fall to attract attento to that section.

an Who Sold the Mine to Kimberley to Cultivate His Voice.

aminer, James A. Brent, one of the ef owners in the Red Cross gold perty at Nevada City, Cal., recently quired by the Western Exploration upany, has left for Milan, Italy, to

turning home. It is stated by the per mentioned that the sale price of e property was not far from \$100,000 nce its acquirement, however, seval times that much worth of splendi he ground's worth a great dear more

UNCLE SAM'S FINE ORE.

hree Carloads Sold Yesterday That Ran Over 50 Per Cent Lead.

ome pretty good lead-ore is coming m the Uncle Sam these days. Man-er Chipman yesterday disposed of tons of ore which carried a little are than seventy-five tons of pure nore than seventy-five tons of pure ead, as well as nice values in silver. Mr. Chipman did not give out the exect figures, but the fact that the lead ontents ran so high shows that the Uncie Sam is mining ore that is probably as good as anything found in the property during the time it was conrolled by Uncle Jesse Knight.

Manager Chipman said there was eathing new or sensational to report Manager Chipman said there was nothing new or sensational to report concerning conditions underground, hough he admitted that the mine was coking very well. Superintendent Legg was in town the first of the week, but if he had any particular information to impart it got no farther than the ears of the officials of the company.

FAME OF ALTA PROPERTY.

A little east of south from Alta, and overing the dividing ridge between little Cottonwood and American Fork istricts, is the old North Pole patstricts, is the old North Pole patthed mining claim. It is southeast of
ake Flora and adjoins the property
the Pioneer Consolidated Mining
mpany. It has been opened through
200-foot tunnel which was wet from
the beginning. In it can be found
tieles at any time of the year, a fact
hich was made the foundation for the century. 1006724c; 1006724c. Total shares, 200.

100 Martha Washington at 6½c, seller 300.
100 Martha Washington at 6½c. ered the 'North Pole' drove a tunnel for 200 feet and struck a new formation,' continued Mr. Cheney. 'It was apparently a very clear crystal quartz. The tunnel appeared very cold, so the miner knocked off a few samples and dropped them in his lunch bucket and came into Salt Lake. He showed his specimens around. None of the boys had seen anything like the stuff, so he hied himself to the assayer's office and hied himself to the assayer's office, and perfected a deal with the assayer to put his samples through the mill. Illning company, which owns a large roup of patented claims at the very ead of the Snake Creek district, just ver the divide from the head of Big ottonwood, is preparing for a most dergetic campaign. It will begin just soon as the weather settles sufficently to make travel over there safed be continued uninterruptedly roughout the year.

It is samples they had strangely disappeared. There was nothing on the samples and a problem of the grip but dampness and a plenty of it. When he went back to his mine he made some further experiments and found that he had struck a mine of pure ice. He had driven his drill into an old glacier. There appear to be thousands of tons of ice in the strike, and I have often wondered why a company has not been formed to market it."

COPPER IN THE CLIMAX.

Creek the first of the week that a big body of copper ore had been struck in the Climax property, belonging to J. P. Gardner and others. According J. P. Gardner and others. According to the report, the Climax shaft, at a depth of 250 feet, dropped into what appeared to be a different vein altogether from that which had been followed down, the latter containing values chiefly in lead and silver. At the depth mentioned, it is said, the copper made its appearance in one side of epin mentioned, it is said, the copper ade its appearance in one side of e shaft, and a little deeper the two rty is located in the Clifton district.

MINING STOCK EXCHANGE.

Fair Trading and an Easy Market

Characterized the Business. Vesterday's trading on the mining stock schange brough: out a total of 36,000 hares, which had a selling value of \$3. 8.62. The market was rather easy all round, but with the exception of Waash, which declined from fixe to 35c before the turning point was reached, none f the participants suffered to any serious extent.

s extent.
Daly was stronger and closed on a sale
\$1.70, while Galena, under manipulan. was not allowed to poke its head
ove the 22c mark.
The balance of the list fared very well,
luding the shares dealt in exclusively

Tintic Ground Changes Hands.

Provo, Feb. 18 — A mining deed from John Soderlund of Eureka to August 5 Johnson of Halley, Ida. converging for a consideration of \$1 the following description of \$1 the fol

The Taylor & Brunton sampler was yesterday in receipt of seven cars of ore from Tintic.

It is reported that John Beck is again sparring for the control of the Bullion-Beck property at Tintic.

At the Conklin sampling works yesterday twelve cars of ore were reported from Tintic and one from Nevada.

J. P. Haines, a Chicago shareholder in the Imperial and Majestic companies, has returned from the mines, well pleased with his trip.

Manager M. M. Johnson of the Cactus went down to that property again last evening, hoping to find the new compressor on the ground.

The annual meeting day of the Eurorobability of reductions in railroad earnines on account of storm damage was another factor. A new divisional bond issue by the Atchison and rumors of a large issue by the Louisville & Nashville served as admonitions of the large corporate requirements overtaxing the money market. The special heaviness of New York Central was attributed to a doubt of the productive results of some of the heavy outlay contemplated by that company. Chicago & Northwestern preferred sold at a decline of lifteen points from last month's preceding sale.

The bond market was dull and irregular. Total shares, par value, \$1,916,000.

United States bonds were all unchanged in the last call.

GRAIN AND PROVISIONS.

hicago, Feb. 18.—Trading in wheat was ill and the news in general was bearish

the day, when the extreme weakness in wheat caused an easier undetone. May closed easy, 14c lower, at 454c.

Oats suffered another sharp break on heavy selling by brokers and commission houses, there being no particular support to the market. May closed weak, 5c (24c lower, at 355c).

Provisions were dull and ruled unexpectedly steady in view of the weakness in the hog situation, a good commission house demand being the feature. The close was easy, with May pork 74c lower. lard was off 74c and ribs were 24c (25c).

reat Story Concerning It Told in Washington.

Sell your inactive mining stocks and put your money into something that is ceive. If stocks are dull now they must be nearly dead. Get out while you an. Take your loss. THE MINES OF UTAH WERE NEVER IN BETTER CONDITION and the market is strong and active. There are a dozen stocks hat are continually fluctuating. When they are down BUY THEM and when hey are up SELL THEM.

San Francisco Mining Stocks,

The annual meeting day of the Eureka Hill company having passed without a quorum of shareholders having put in an appearance, the old officers and directors will serve for another year. There would most likely have been no changes, anyhow. Manager Henry M. Crowther of the Blue Acre properties in Beaver county returned from camp yesterday morning very much pleased with the prog-ress being made in developments, as well as with the showing made. No. 1 shaft is now down to the 100-foot mark, and a very good quality of copper ore

Manager G. D. B. Turner of the J. I. C. company's Park City property went out to the mine again yesterday morning. The bottom of the shaft is now said to be in mighty interesting ground and a big strike may be looked for at any time, though the shaft is not yet within considerable distance of where it was expected to get the ledge.

good turn-out is expected to be on hand tomorrow evening at the Commercial club to hear and act upon the report they will then present.

WEAK AND LOW-SPIRITED.

A Correspondent Thus Describes His Experience. "I can strongly recommend Herbine "I can strongly recommend Herbine as a medicine of remarkable efficacy for indigestion, loss of appetite, sour taste in the mouth, palpitation, headache, drowsiness after meals with distressing mental depressions and low spirits. Herbine must be a unique preparation for cases such as mine, for a few doses entirely removed my complaint. I wonder at people going on suffering or spending their money on worthless things, when Herbine is procurable, and so cheap." 50c a bottle at Z. C. M. I. drug department.
